

New Source Review newspaper advertisements for construction permit applications, July 14, 2005. The following public notices have been published in the newspapers listed below each advertisement. These newspaper advertisements for construction permit applications were published on one of the following dates: July 12, July 13, or July 14, 2005. Public notices are generally published every two weeks. The previous publication of public notices was June 28 – 30, 2005.

PUBLIC NOTICE

The Tennessee Division of Air Pollution Control (TDAPC) has received requests for construction of air contaminant sources as noted below. The proposed construction is subject to part 1200-3-9-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to Mr. Barry R. Stephens, Director, Division of Air Pollution Control, 9th Floor, L & C Annex, 401 Church Street, Nashville, Tennessee 37243-1531 within thirty (30) days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Individuals with disabilities who wish to participate should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such contact may be in person, by writing, telephone, or other means, and should be made no less than ten days prior to the end of the public comment period to allow time to provide such aid or services. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 12th Floor, 401 Church Street, Nashville, TN 37243, 1-866-253-5827. Hearing impaired callers may use the Tennessee Relay Service, 1-(800)-848-0298.

The applicant is Liquid Recovery with a mailing address of 1190 Hancock Chapel Road, New Sausbury, IN 47161. They seek to obtain an air contaminant permit (Division identification number: 06-0225-01/58225) for construction of a Mobile Solvent Recovery System at 3730 Old Tasso Rd. NE, Cleveland, TN 37312. This proposed operation would consist of a portable liquid separation unit used to recover solvent from the liquid waste generated at Sun Chemical. A diesel generator would be used to power the unit. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. S. Lodl is the assigned Division person.

For the Bradley County "Cleveland Daily Banner" --published once on or before Thursday, July 14, 2005.

The applicant is Vulcan Construction Materials, L.P. with a mailing address of P.O. Box 7, Knoxville, TN 37901. They seek to obtain an air contaminant permit (Division identification number 08-0034-01/58275) for modification of a Rock Crushing Operation at 482 Hurst Lane, Readyville, TN 37149. This operation consists of existing permitted conveyors, screens, crushers, crushed rock stockpiles, and associated equipment used to make crushed rock. Wet suppression will continue to be used for pollution control. The requested modification is to increase the production rate at the facility. There would be no physical construction. Regulated air contaminants emitted by this source would increase. Mr. M. Reynolds is the assigned Division person.

For the Cannon County "Cannon Courier"--published once on or before Thursday, July 14, 2005.

The applicant is Dyer County Animal Hospital with a mailing address of 410 Hwy 51 Bypass W, Dyersburg, TN 38024. They seek to obtain an air contaminant permit (Division identification number: 23-0127-01/58077) for construction of an Incinerator at the same address. This proposed operation would consist of an incinerator to be used for incineration of animal remains. An afterburner would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted from this source. Mr. Jim A. Attar is the assigned Division person.

For the Dyer County "State Gazette"--published once on or before Thursday, July 14, 2005.

The applicant is NuOil, Inc. with a mailing address of 5840 Hwy 57 W, Counce, TN 38326. They seek to obtain an air contaminant permit (Division identification number: 36-0089-02/57733) for a Storage Tank Operation at the same address. This existing operation consists of five (5) tanks used for storage of used oil. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants are emitted from this source. Mr. Jim A. Attar is the assigned Division person.

For the Hardin County "Courier"--published once on or before Thursday, July 14, 2005.

The applicant is Liquid Recovery with a mailing address of 1190 Hancock Chapel Road, New Sausbury, IN 47161. They seek to obtain an air contaminant permit (Division identification number: 40-0112-01/58226) for construction of a Mobile Solvent Recovery System at 100 Plumley Drive, Paris, TN 38242. This proposed operation would consist of a portable liquid separation unit used to recover solvent from the liquid waste generated at Dana Corporation. A diesel generator would be used to power the unit. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. S. Lodl is the assigned Division person.

For the Henry County "Paris Post-Intelligencer" --published once on or before Thursday, July 14, 2005.

The applicant is Liquid Recovery with a mailing address of 1190 Hancock Chapel Road, New Sausbury, IN 47161. They seek to obtain an air contaminant permit (Division identification number: 41-0064-01/58227) for construction of a Mobile Solvent Recovery System at 6895 Bates Crossing Industrial Park, Lyles, TN 37089. This proposed operation would consist of a portable liquid separation unit used to recover solvent from the liquid waste generated at Clark Container. A diesel generator would be used to power the unit. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. S. Lodl is the assigned Division person.

For the "Hickman County Times" --published once on or before Thursday, July 14, 2005.

The applicant is Rinker Materials South Central, Inc. with a mailing address of P.O. Box 2389, Knoxville, TN 37901. They seek to obtain an air contaminant permit (Division identification number: 74-0035-01/58318) for modification of a Rock Crushing Operation located on 3025 Joe Dowlen Road, Pleasant View, TN 37146. This existing operation consists of crushers, screens, conveyors, feeder, pugmill, stockpiles, and associated equipment used to produce crushed rock. Wet suppression is used for pollution control. The requested modification is to replace an existing conveyor with a new conveyor. There would be physical construction.

Regulated air contaminants emitted by this source would stay the same. Mr. M. Reynolds is the assigned Division person.

For the "Robertson County Times"--published once on or before Thursday, July 14, 2005.

FIRST APPLICANT

The first applicant is Liquid Recovery with a mailing address of 1190 Hancock Chapel Road, New Sausbury, IN 47161. They seek to obtain an air contaminant permit (Division identification numbers: 75-0590-01/58223) for construction of a Mobile Solvent Recovery System at 704 12th Avenue, Smyrna, TN 37167. This proposed operation would consist of a portable liquid separation unit used to recover solvent from the liquid waste generated at M-I Products. A diesel generator would be used to power the unit. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. S. Lodl is the assigned Division person.

SECOND APPLICANT

The second applicant is Liquid Recovery with a mailing address of 1190 Hancock Chapel Road, New Sausbury, IN 47161. They seek to obtain an air contaminant permit (Division identification number: 75-0591-01/58224) for construction of a Mobile Solvent Recovery System at 880 Butler Road, Murfreesboro, TN 37127. This proposed operation would consist of a portable liquid separation unit used to recover solvent from the liquid waste generated at Stratos Boats. A diesel generator would be used to power the unit. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. S. Lodl is the assigned Division person.

For the Rutherford County "Daily News Journal"--published once on or before Thursday, July 14, 2005.

The applicant is Royal Mouldings, LLC with a mailing address of P. O. Box 610, Marion, VA 24354. They seek to obtain an air contaminant permit (Division identification number: 82-0297-05/58323) for modification of an existing Plastic Extrusion Operation located at 328 Industrial Drive, Bristol, TN 37620. This existing operation consists of plastic extrusion operations used to manufacture plastic molding. The requested modification is to add new extruders to the existing operation, and to increase the permitted input rate. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants emitted by this source would increase. Mr. T. Blake is the assigned Division person.

For the Sullivan County "Bristol Herald Courier"--published once on or before Thursday, July 14, 2005.

The applicant is Humane Society of Warren County with a mailing address of 94 Collie Drive, McMinnville, TN 37110. They seek to obtain an air contaminant permit (Division identification number: 89-0085-01/58228) for construction of an Animal Incinerator at the same address. This proposed operation would consist of one natural gas-fired incinerator to be used for incineration of animal remains. An afterburner would be used for pollution control. There would be physical construction. Regulated air pollutants would be emitted by this source. Mr. S. Kusumanchi is the assigned Division person.

For the Warren County "Southern Standard"--published once on or before Thursday, July 14, 2005.

The applicant is C & S Asphalt Company with a mailing address of 2144 Robert Mathews Highway, Sparta, TN 38583. They seek to obtain an air contaminant permit (Division identification number: 93-0062-01/58276) to modify an Asphalt Batch Plant located at the same address. This existing operation consists of an asphalt batch mixer, hot mix asphalt cement storage, conveyors, aggregate stockpiles, and associated equipment used to produce hot mix asphalt. A cyclone and baghouse are used for the control of particulate (TSP) emissions. The requested modifications are to update the permit to reflect a change in ownership and to include the State's current operating requirements for asphalt plants. This would decrease total air contaminant emissions, however, carbon monoxide would increase due to the application of updated EPA emission factors. There would be no physical construction. Mr. W. Medley is the assigned Division person.

For the White County "Sparta Expositor"--published once on or before Thursday, July 14, 2005.
